**Siffrin Academy's curriculum** is a combination of classwork and discovery. Educational trips and community volunteerism are also part of the syllabus. The program is ideal for people graduating from high school and/or people on a path to employment. Prevocational training, literacy, soft skills training, arithmetic, money skills, and self-advocacy training are also part of the experience at Siffrin Academy.

Integrated into the University culture, Siffrin Academy is designed to help participants reinforce skills and abilities they learned throughout their educational career. Training provides the proficiencies and mechanisms essential for success in the community and the workforce.
